

# Storage Year-Round for UCF Athletics

A CASE STUDY BY PODS® FOR BUSINESS

The University of Central Florida (UCF) is a research university in Orlando that was established in 1963. With more than 66,000 students enrolled across the main campus and 12 regional locations, it's one of the largest universities in the country.

## THE CHALLENGE

UCF needed a sensible storage solution for athletic equipment. During off seasons, the university used random storage throughout the university to keep equipment they needed on-site. All unused equipment was gathered and delivered to an expensive nearby storage facility. UCF needed better organization and more convenient on-site storage options.

## THE PODS SOLUTION

PODS crafted a solution for UCF in which our steel-framed, weather-resistant containers were delivered when the university was ready to store athletic equipment for a season. For easy access, they kept the containers on-site as needed, or even year-round.

## THE RESULTS

Working with PODS gave UCF a more convenient, efficient, year-round solution to their storage problems. It also helped them save money every month and avoid the hassle and expenses associated with transporting seasonal athletic equipment.

## How PODS Works

### We Deliver

Schedule delivery of your empty containers when it's most convenient.

### You Load

Or, one of PODS' labor partners can pack, load and unload for you.

### We Move

When you're ready, we pick up the container and drive it across town or across the country.

### We Store

Keep containers on-site, or we can move them to a local, secure PODS Storage Center.

## PODS Flexible Solutions for Business

**Flexible Scheduling.** Prepare for the unexpected with easy schedule changes and reservation options.

**Secure Storage.** Our steel-framed, weather-resistant PODS containers can be kept either on-site or in one of our secure local Storage Centers.

**Conveniently Mobile.** Even when fully loaded, containers can be delivered just about anywhere thanks to PODZILLA®, our patented level-lift system.

**Extensive Network.** There are nearly 200,000 PODS containers and 230 PODS Storage Centers across the U.S., Canada, Australia, and the UK.
