

Coverage options for added peace of mind

Whether moving or storing, you're loading your possessions in the PODS container, so a little extra protection might be worth considering for added peace of mind. Check out this guide to understand coverage options offered by PODS.

Contents Protection Option

This option covers damage or loss to any stored contents inside a PODS container while on your property, at a PODS Storage Center, or during transit. This option also includes coverage to your PODS container against loss or damage.

The Contents Protection Option may be selected at the time of booking your PODS container or within 48 hours of doing so.

Please note that for certain select markets and types of moves, \$10,000 of Contents Protection coverage may already be included in your quote. At the time of your order, you have the option to increase or lower the amount of coverage, or to remove it entirely.

Contents Protection Option: coverage levels and pricing

PODS offers coverage levels from the declared value of \$5,000 to \$300,000. When purchasing the Contents Protection Option, you'll have the opportunity to choose the level of protection that represents the value of your belongings. The coverage applies to all contents stored in the container, subject to the terms and conditions of the coverage, which can be found at [PODS.com/CPO](https://www.pods.com/CPO).

You will be charged a monthly fee that corresponds to your declared value for the coverage, plus a one-time coverage fee of \$50 will be charged for moves outside the local area. Pricing is expressed in U.S. dollars. There is a \$100 deductible per claim. Damaged items will be covered to the extent of their respective depreciated value.
